## WIN \$5,000+/MONTH

<https://skool.com/obc>

---

## STEP 1: Channel name

Copy this prompt to come up with a channel name:

Give me 30 unique YouTube channel names that sound like a modern AI studio, lab, or systems company. The names should feel: - professional - trustworthy - slightly technical - not personal names - not hype or scammy Examples of vibes: Studio, Systems, Lab, Stack, Ops, Factory, Engine, Foundry

## STEP 2: Avatar

1. Go to <https://gemini.google.com>
2. Paste this prompt

A high-quality 3D illustrated avatar in 16:9 aspect ratio. The avatar is a friendly, intelligent AI guide with a modern tech aesthetic. Style: - Pixar-level quality but realistic - soft studio lighting - clean background (dark gray or warm neutral) - expressive eyes - confident but calm facial expression Outfit: - black or dark hoodie - minimal logo or no logo Framing: - medium shot - centered - cinematic depth of field - ultra sharp - professional YouTube thumbnail quality Mood: Approachable, intelligent, trustworthy, builder energy

## STEP 3: 20 unique video ideas

Copy this prompt:

Generate 20 YouTube video ideas for a faceless channel that teaches AI business models. Topics should include: - AI automation services - AI agencies - AI micro SaaS - AI content factories - AI workflows for freelancers - AI tools that replace jobs - AI systems that make money with small audiences Each title should: - feel practical and actionable - hint at real money or leverage - avoid hype words like "insane", "crazy", "overnight" - be something a serious beginner would click Examples of tone: "This AI Service Makes \$5,000/Month With 3 Clients" "I Built an AI Business Using Only One Tool" "This AI Workflow Replaced a Full-Time Employee" "Small AI Businesses That Actually Work in 2026"

## STEP 4: Write the script

Write a script with [NotebookLM](#)

Prompt:

Write a YouTube script for a [TITLE] YouTube video in the same style as the videos from this chat. Structure: 1. Short hook (problem or opportunity) 2. What the business is 3. How it works step-by-step 4. Tools used 5. Who this is for / who should skip 6. Soft invitation to join a Skool community to get templates and support  
Tone: - calm - clear - practical - no hype - no guru language  
Length: 8-12 minutes

---

## STEP 5: Create a Voice

Upload your AI Avatar into ChatGPT and ask it to generate a voice design prompt for [Elevenlabs](#) based on how this person looks like.

Once you get the voice design prompt, paste it into [ElevenLabs](#)

Steps:

1. Upload your avatar image into ChatGPT
2. Ask:

Create a voice design prompt for ElevenLabs based on this character. The voice should sound: - clear - friendly - intelligent - neutral accent - slightly warm - confident but not salesy

1. Paste into ElevenLabs
2. Save it

---

## STEP 6: Generate Video

Generate full video with [HeyGen](#)

---

## STEP 7: Get Instantly Monetized

💰 Make money from day 1 → <https://dfydave.com/monetization>

---

## STEP 8: Create Your Skool

**Price:** \$60/month

**Goal:** 300+ members = \$18,000/month

### Community name

Same brand as channel.

### Inside Skool:

Create 4 core sections:

#### 1. AI Business Models

- AI agency
- Automation services
- Content factories
- Micro SaaS ideas

#### 2. Step-by-Step Systems

- Tool stacks
- Prompts
- Client workflows
- Templates

#### 3. Wins & Proof

- Member results
- Case studies
- Screenshots

#### 4. Support

- Q&A
  - Feedback
  - Office hours
- 

## STEP 8: Content → Skool funnel

Every video ends with:

- "If you want the templates..."
- "If you want the exact workflow..."
- "If you want help setting this up..."

No pressure. Just access.

Your YouTube is **free education**.

Your Skool is **implementation**.

---

## STEP 9: Editing

Tools:

- CapCut
- Canva
- Premiere

Rules:

- Cut silence
- Add light captions
- Keep pacing calm
- Don't overedit
