## STEP 3: 20 unique video ideas

Copy this prompt:

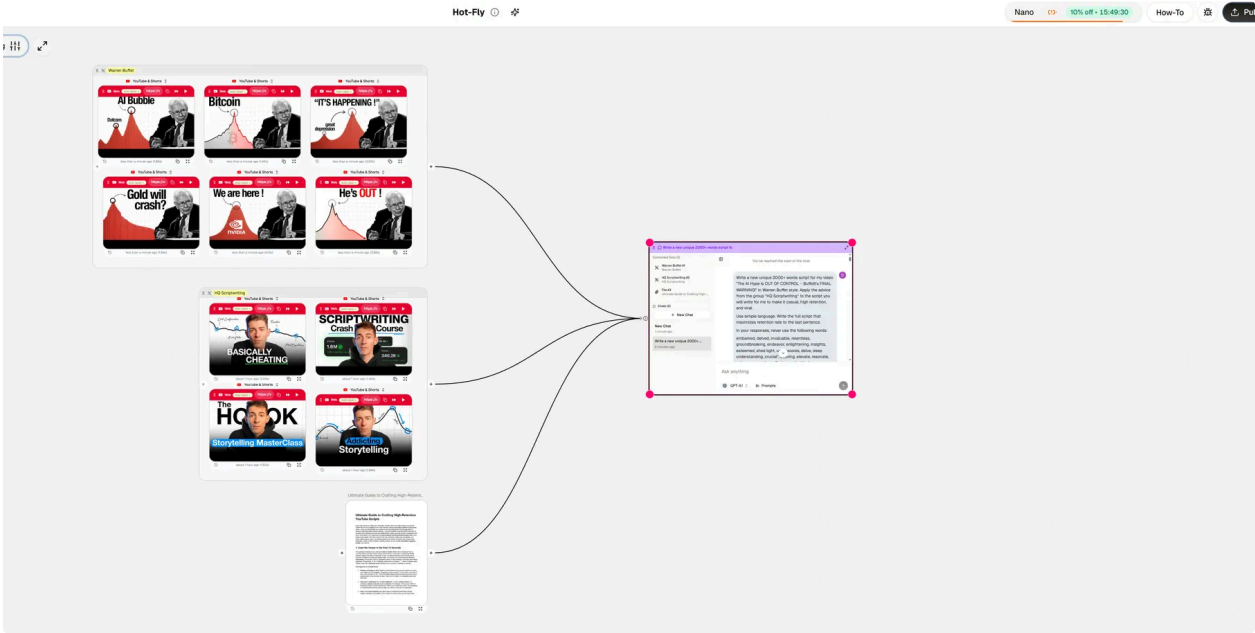

Generate 20 unique video ideas for a YouTube channel that covers financial warnings, market predictions, and investment commentary inspired by Warren Buffett's philosophies. The videos should feel dramatic, urgent, and educational – showing major market crashes, bubbles, or overvalued assets. Each title should: Sound like a warning or urgent forecast (e.g. "It's Happening!", "He's OUT!", "We are here!"). Reference famous companies, assets, or economic events (e.g. Nvidia, Bitcoin, AI Bubble, Gold Crash, Tariffs). Include emotionally charged phrases that spark curiosity or fear (e.g. "WARNS!", "DISASTER!", "CRASH in 2026?", "Overvalued!", "I'm SELLING!"). Be between 8-14 words long. Feel like something a serious finance audience would click, not sensational tabloid style. Example titles that you can model but with a twist or different topic: "AI Bubble is Bigger than DOTCOM! – Warren Buffett WARNS!" "Bitcoin is Going to ZERO – Warren Buffett WARNS!" "NVIDIA is HIGHLY Overvalued! – Warren Buffett WARNS!"
